Disability Income Insurance

Many Professionals in the entertainment industry involve big names with big incomes. **L. R. Johnson & Associates, Inc.** writes jumbo sized cases, however, there are thousands of people who earn a good living that may not be recognized by the general public. We are just as happy to help with the smaller cases as we are with the larger cases.

The entertainment industry provides challenges for traditional disability income insurance carriers because today's popular entertainers can be tomorrow's old news. Traditional Insurance carriers may refuse to insure them because their incomes are not always fixed.

Entertainment disability income insurance benefits may also include the following:

- Disfigurement
- Event Cancellation
- Domestic Coverage
- Non-Appearance
- Special Risk Coverage
- International Coverage
